Want a Free E-Book?

Before you settle in and learn how to make serious money from your niche blog, just a quick note: If you're interested in freelance writing as well, you should know that subscribers to my blog, *Make a Living Writing*, currently receive a free e-book just for signing up: [100 Freelance Writing Questions Answered](#).

If that would help you, I recommend you hop over and sign up (if you aren't one of my subscribers already). I change my free offer for subscribers fairly regularly, so if you'd like to nab that title, subscribe now.

Introduction

This e-book is for bloggers who're ready to move up to earning a full-time living from their blog.

Is that you? Great!

In my previous e-book *[Small Blog, Big Income: One Niche Blogger's 7-Step Success Formula](#)*, I outlined the basics of launching a blog with the potential to earn from a small audience:

- **Envision** your blog concept and research competitors
- **Launch** ASAP
- **Get Serious** by committing to your blog's success
- **Attract** readers with useful content and your freebie offer
- **Convert** visitors into subscribers and **Bond** with them
- Find **Mentors & Collaborators** to help bring you new readers
- **Earn** from your audience by getting their help in designing an initial, low-priced product or service they need

Once you've completed these basics, the question is: How do you turn earning a little money with your small, niche blog into earning a *lot*?

That's what I cover in this e-book.
